“THE ONLY SINGLE CAMPUS UNIVERSITY OF TAJIKISTAN”

The Heart of Central Asia

TAJIKISTAN

located in the heart of Central Asia, is a country known for its breathtaking mountain landscapes, rich history, and strong cultural heritage. With ancient roots along the Silk Road, Tajikistan has long served as a bridge between East and West. The country is Recognised for its peaceful environment, affordable cost of living, and growing focus on higher education. With a welcoming atmosphere and student-friendly lifestyle, Tajikistan has emerged as a promising destination for international students, particularly in medical education.

Culture & Lifestyle:

Tajikistan has a deep and vibrant cultural heritage influenced by Persian traditions, literature, and art. The country is known for its warm hospitality, where international students are treated with respect and friendliness. Traditional music, festivals, and local customs reflect a strong sense of community. Cities and towns maintain a calm pace of life, allowing students to focus on studies while enjoying a culturally enriching experience.

Location & Connectivity

Tajikistan is strategically located in Central Asia, bordered by Uzbekistan, Kyrgyzstan, China, and Afghanistan. The country is well-connected through international air routes, making travel convenient for students from different parts of the world. Its central location ensures easy access to neighboring countries, enhancing regional and global connectivity.

The International Airports in Tajikistan are:

1. Dushanbe International Airport (DYU)
2. Khujand International Airport (LBD)
3. Kulob International Airport (TJU)
4. Bokhtar International Airport

These airports provide regular international and regional connectivity for students.

TAJIK CUISINE:

A Taste of Central Asian Tradition

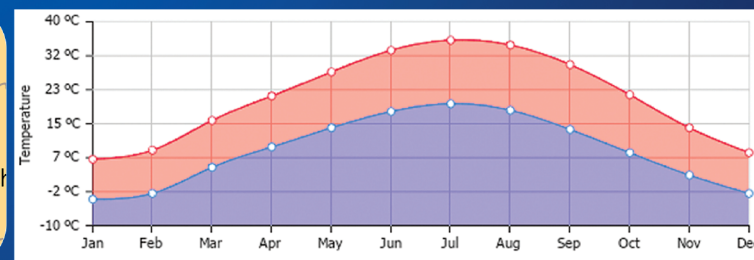

Tajik cuisine reflects its Silk Road heritage, offering simple yet flavorful dishes prepared with rice, vegetables, meat, and aromatic spices. Popular dishes include Plov (Pilaf), Qurutob, Shurbo (traditional soup), and various bread varieties. International students also have access to familiar and Indian-style food options in major cities and university hostels.

Climate & Living Conditions:

Tajikistan experiences a continental climate with four distinct seasons

- Summers (June–August): Warm and dry
- Winters (December–February): Cold, with light snowfall in some regions
- Spring & Autumn: Mild and pleasant, ideal for academic life

The comfortable climate, combined with low living expenses, creates an ideal environment for students pursuing higher education.

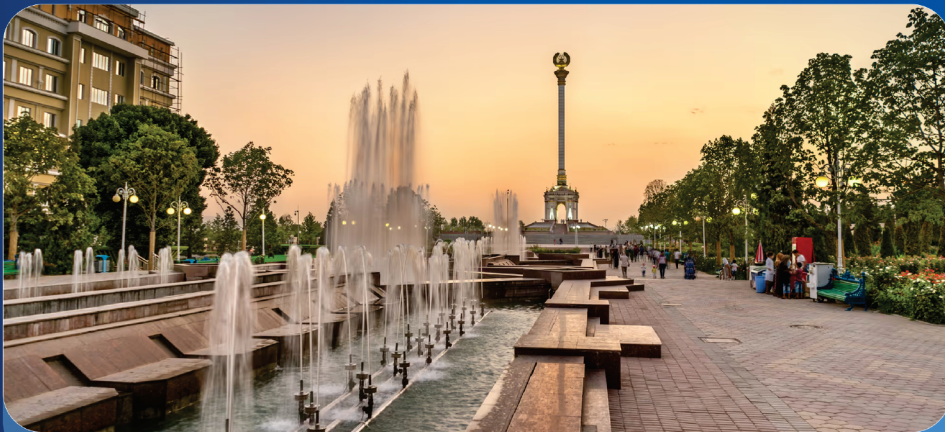

Danghara City

Danghara is a peaceful and developing town located in the Khatlon region of Tajikistan. Surrounded by natural beauty and open landscapes, Danghara offers a calm, safe, and student-friendly environment ideal for academic focus. Known for its clean surroundings and welcoming local community, the city provides a perfect balance between modern facilities and traditional Tajik culture. With growing educational infrastructure and proximity to major cities, Danghara has become an emerging destination for higher education, especially in the medical field.

CITY LIFE & STUDENT ENVIRONMENT

Danghara offers a quiet and disciplined lifestyle, making it ideal for international students pursuing demanding courses like medicine. The city maintains a low-stress atmosphere with essential amenities, local markets, cafés, and recreational spaces. Students enjoy a close-knit community environment that promotes safety, comfort, and cultural integration. The slower pace of life helps students stay focused on academics while enjoying a healthy work-life balance.

CULTURE & HERITAGE

Danghara reflects the rich Persian-influenced Tajik culture, with strong traditions in hospitality, family values, and community living. Local festivals, traditional music, and cuisine give students a chance to experience authentic Tajik culture. International students are warmly welcomed and quickly adapt to the friendly social environment.

CONNECTIVITY

Danghara is well-connected by road to major cities in Tajikistan, ensuring smooth travel for students.

- **Roadways:** Regular buses and taxis connect Danghara to Dushanbe, the capital city, and other parts of the Khatlon region.
- **Air Travel:** The nearest international airport is Dushanbe International Airport (DYU), approximately a few hours' drive from Danghara.
- **Rail & Local Transport:** Reliable local transport services make daily commuting easy and affordable.

NEARBY AIRPORTS

- Dushanbe International Airport (DYU) – Primary international gateway
- Kulob International Airport (TJU) – Regional connectivity

These airports ensure convenient international and domestic travel for students

LIVING COST & SAFETY

Danghara is known for its low cost of living, making it highly affordable for international students.

Daily expenses such as accommodation, food, and transportation are budget-friendly.

The city is safe, peaceful, and well-suited for student life, with a strong sense of community security.

Khatlon State Medical University

Located in Danghara, in the **Khatlon region of Tajikistan**, **Khatlon State Medical University (KSMU)** is a prestigious **government medical institution** with a strong legacy in medical education. Established in **1967**, the university has steadily evolved into one of **Central Asia's leading centers for international medical education**, known for its academic excellence, strong clinical exposure, and adherence to global healthcare standards.

KSMU offers a **globally recognized MBBS program** with instruction available in **English, Russian, and Tajik**, making it an ideal choice for international students seeking quality medical education at an affordable cost. The MBBS program spans **five years of academic study**, followed by a **mandatory one-year internship**, ensuring comprehensive theoretical and practical training.

The university is home to **over 3,000 students**, including nearly **1,000 international students**, and is supported by a highly qualified faculty of **more than 200 experienced professors and clinicians**. Students receive hands-on clinical training through the university's **own teaching hospital** and affiliated medical centers, gaining early and continuous exposure to real-world medical practice.

KSMU enjoys strong **global credibility and recognition**. It is recognized by the **World Health Organization (WHO)** and approved by leading medical authorities such as the **National Medical Commission (NMC) of India, FAIMER, and ECFMG (USA)**. The curriculum is aligned with international medical standards, enabling graduates to appear for licensing examinations including **FMGE/NExT (India), USMLE (USA), and PLAB (UK)**.

The modern university campus features **well-equipped hostels**, on-campus dining facilities, academic libraries, and dedicated **international student support services**, ensuring a safe, comfortable, and multicultural learning environment. With its strong academic foundation, global recognition, and student-friendly ecosystem, **Khatlon State Medical University** stands out as an ideal destination for aspiring doctors seeking a trusted and internationally accepted medical degree.

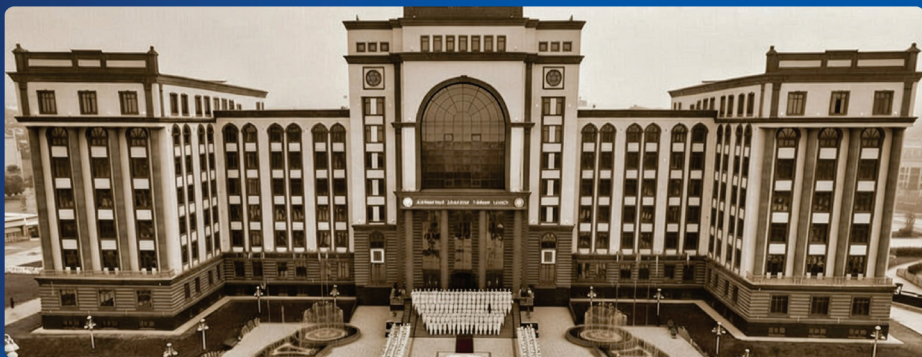

ESTD 1967

HISTORY OF

KSMU has a proud legacy of medical education that spans more than five decades, reflecting steady growth, academic excellence, and international recognition.

1967

The university was established in 1967 as Kulyab State Medical College, beginning its journey with a modest intake of just 30 students. From its early years, the institution focused on building a strong foundation in medical sciences and clinical training

2005

A significant achievement came in 2005, when the university received full accreditation and became a member of the Association of Medical Schools in Europe (AMSE). This recognition strengthened its global standing and reinforced its commitment to international medical education standards.

KHATLON STATE MEDICAL UNIVERSITY

1990

In 1990, marking a major milestone in its development, the institution was renamed Khatlon State Medical Institute and was officially granted university status, expanding its academic scope and research capabilities

2026

Today, Khatlon State Medical University stands as one of the leading medical institutions in Central Asia, with over 3,000 students and a strong academic team of experienced faculty members. The university continues to evolve as a modern, globally connected medical university, dedicated to training competent and compassionate doctors for the world.

OUR VISION

- To be a globally recognized leader in medical education and research.
- To support global health through quality education and service.
- To produce skilled, ethical, and compassionate healthcare professionals.
- To foster an inclusive, student-centered learning environment.

OUR MISSION

- To provide high-quality medical education in scientific knowledge and ethical practice
- To nurture compassionate healthcare providers committed to serving society.
- To create an inclusive learning environment for students of all backgrounds.
- To promote research, innovation, and public health initiatives.

INTERNATIONAL RECOGNITIONS AND ACCREDITATIONS OF KHATLON STATE MEDICAL UNIVERSITY

Khatlon State Medical University (KSMU), is a well-established medical institution in Tajikistan, recognized by several international medical organizations. These accreditations ensure that (KSMU), meets global standards in medical education, allowing its graduates to pursue medical practice and higher studies in various countries.

World Health Organization (WHO): (KSMU) is listed in the World Directory of Medical Schools (WDOMS), a comprehensive database of medical schools worldwide. It's important to note that while inclusion in WDOMS indicates recognition, it does not imply accreditation or endorsement by WHO.

National Medical Commission (NMC): The University is recognized by the National Medical Commission of India, making its graduates eligible to practice medicine in India after meeting the necessary requirements.

Foundation for Advancement of International Medical Education and Research (FAIMER): KSMU is recognized by FAIMER, which maintains directories of international medical schools and accrediting agencies.

World Federation for Medical Education (WFME): KSMU is recognized by WFME, an organization that aims to enhance the quality of medical education worldwide.

Educational Commission for Foreign Medical Graduates (ECFMG): Graduates from KSMU are eligible to apply for ECFMG certification, a prerequisite for pursuing postgraduate medical education and licensing in the United States.

These accreditations and recognitions affirm (KSMU), commitment to maintaining international standards in medical education, providing its graduates with opportunities to practice medicine globally, subject to fulfilling respective licensing requirements.

A GLOBALLY ALIGNED MBBS PROGRAM

The MBBS program at Khatlon State Medical University follows a 5-year academic curriculum with a mandatory 1-year clinical internship, combining strong theoretical learning with extensive practical exposure. Students gain early hands-on clinical experience through affiliated hospitals with good patient flow and modern laboratories. Clinical postings, case discussions, and the final-year internship ensure graduates develop strong diagnostic skills and real-world medical confidence.
